2315 Avenue B
San Antonio, TX 78215

To whom it may concern,

This letter is intended to be a recommendation for *Farr Builders* as a preferred contractor for our organization the Municipal Golf Association of San Antonio. The work that has been completed has met and exceeded our expectations each time. We originally were contacted by Farr Builders for patch work on our existing cart paths. Once the relationship began and the quality of work was demonstrated we have begun using them for multiple projects throughout our facilities. Roland, Daniel and Adrian have given us very special attention. When they show up for a job, they are prompt, polite, and work very hard. Not only are these gentleman compiling fair and accurate quotes, you will see them working the machinery and getting their hands dirty. This is a company that we will continue to stand by and support.

I would personally recommend them for your upcoming project. Please come to our facilities and see the quality of work that has been completed. Below is a list of sites.
